MOMBASHA PARK MONTHLY REPORT

To: Supervisor Cardone, Town Board
From: Ann Marie Morris
Re: June Activity Report
Date: June 1-30, 2018

Success! With the help of John Scherne, Highway personnel and Ebner Plumber we now have water to the soccer field. So far, a seal was repaired, the pump was rebuilt, a control panel replaced and electric to the other control panel fixed-that was down at the pump house. Approximately 150' was of the line was dug up to locate the leak(s) then it was repaired. The line was air-pressure tested and once that held, it was filled with water. Next step is to locate any leaks on the soccer field. The process will continue to the baseball field and then further onto the bathrooms.

On June 12, double door fencing was cut out of the existing fence to aid with getting machinery in/out or for emergency vehicles since the parking lot is so far from the field (unlike the baseball field). The next day June 13, both parking lots were stripped with a total of 85 parking spots, in/out arrows, no parking zones and handicap parking stalls. It doesn't appear that the parking lots were done since it opened in 2007. It should help tremendously with parking on game days.

During the month of June the fields are well-utilized by both the MW travel soccer league and the MW Little League. They finished up by the 3rd week in June with playoffs. The travel teams finishes up mid-July.

Tony and I walked the park along with the maintenance staff to correct some issues and spruce up the area before Community Day Monroe First Responders Food Truck Festival- June 16th: mowing, weeding, mulching and planting flowers. A large planter box at the baseball field entrance was made by the maintenance staff. Vegetation growth along the hiking trail has proven to be a challenge to keep in check but gets done as time allows for the staff.

Community Day June 16-the premise of the day was to honor Monroe's first responders from our community ~but it was also to showcase the beautiful park that many of our residents have never been to. By all accounts, the vendors thought it was a terrific success considering it was the first time the organizers had done this type of event. The feedback from our residents, both long-term and those new to our area, was that this was the first time many of them had been to Mombasha Park! It was a terrific way to utilize the park. Plans are in the works for another Community Day in the fall.

Ann Marie
