Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

<thead>
<tr>
<th>Name of Action or Project:</th>
<th>Creation of the Town of Palm Tree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Location (describe, and attach a general location map):</td>
<td>see attached</td>
</tr>
<tr>
<td>Brief Description of Proposed Action (include purpose or need):</td>
<td>The proposed action involves the review and division of the current Town of Monroe into two parts, one being the proposed new Town of Palm Tree, and the other being the remainder of the existing Town of Monroe excluding the Village of Knyca Joel as well as certain lands contiguous to that Village into a new Town all north of NYS Route 17. See attached map. These lands north of NYS Route 17 are proposed under the new Town of Palm Tree. This division and the proposed new Town has been made by petition of qualified electors of the Town of Monroe, County of Orange under NYS Town Law Article 6. The petition seeks County Legislature determination to grant the petition and provide for the submission of the proposition to the electors of the Town of Monroe. This action seeks to divide these lands into two (2) Towns to separate governmental affairs and functions. The Petition does not involve any physical or site disturbance; however, the impacts of potential development at buildout are included within the scope of this action. This review focuses on the grant of petition, the submission to the electors, and 55+ acres within proposed Town but outside of current Village. See Part 3 attachment of this EAF for further explanation.</td>

### C. Planning and Zoning

**C.1. Planning and zoning actions.**

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed?

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

### C.2. Adopted land use plans.

- a. Do any municipally-adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? ☐ Yes ☑ No
- If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? ☐ Yes ☑ No

- b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) ☐ Yes ☑ No
- If Yes, identify the plan(s):

- c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? ☐ Yes ☑ No
- If Yes, identify the plan(s):

Orange County Open Space Plan, adopted 2004 and supplemental to the Orange County Comprehensive Plan
Orange County Agriculture and Farmland Protection Plan, adopted 1996 and updated 2015 as supplement to Orange County Comprehensive Plan
C.3. Zoning

- Is the life of the proposed action located in a municipality with an adopted zoning law or ordinance? **Yes**
- If Yes, what is the zoning classification(s) including any applicable overlay districts? The Village of Kriyas Joel is subject to either Commercial (C) or Residential (R) zoning. The parcels outside the Village to be incorporated into the new Town of Palm Tree are currently zoned Rural Residential 1-acre minimum (RR-1.0AC) or Urban Residential Multifamily (URM).
- Is the use permitted or allowed by a special or conditional use permit? **No**
- If Yes, what is the proposed new zoning for the site? None at this time; the new Town will need to adopt zoning following its incorporation.

C.4. Existing Community Services

- In what school district is the project site located? Kiryas Joel Union Free (Village of Kriyas Joel); Monroe-Woodbury Central (Town of Monroe
- What police or other public protection forces serve the project site? New York State Police; Orange County Sheriff; Village of Kriyas Joel Public Safety Department
- Which fire protection and emergency medical services serve the project site? Monroe Fire Department; Marmheha Fire Company; Monroe Volunteer Ambulance Corps; Kriyas Joel Fire Department; Kriyas Joel Volunteer EMS
- What parks serve the project site? Schunnemunk Mountain State Park; Smith Clove Park; Crane Park (locally known as Airplane Park); Gannicus County Park; the Long Path; Orange County Heritage Trail

D. Project Details

D.1. Proposed and Potential Development

- What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Division of Existing Town of Monroe into two parts and incorporation of northeasterly portion as described above as new Town of Palm Tree.
- Total acreage of the site of the proposed action? 941.4 acres
- Total acreage to be physically disturbed? 0 acres
- Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? na acres
- Is the proposed action an expansion of an existing project or use? **No**
- If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % Units:
- Is the proposed action a subdivision, or does it include a subdivision? **No**
- Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)
- Is a cluster/conservation layout proposed? **No**
- Number of lots proposed?
- Minimum and maximum proposed lot sizes? Minimum Maximum
- Will proposed action be constructed in multiple phases? **No**
- If Yes, anticipated period of construction:
- If Yes:
  - Total number of phases anticipated
  - Anticipated commencement date of phase 1 (including demolition) month year
  - Anticipated completion date of final phase month year
  - Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases:
f. Does the project include new residential uses?  
If Yes, show numbers of units proposed.

<table>

<tr>
<td>At completion of all phases</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

g. Does the proposed action include new non-residential construction (including expansions)?  
If Yes,  

i. Total number of structures:  
ii. Dimensions (in feet) of largest proposed structure: height; width; and length  
iii. Approximate extent of building space to be heated or cooled: square feet

go. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?  
If Yes,  

i. Purpose of the impoundment:  
ii. If a water impoundment, the principal source of the water:  
   - Ground water  
   - Surface water streams  
   - Other specify:  
iii. If other than water, identify the type of impounded/contained liquids and their source.

iv. Approximate size of the proposed impoundment.  
   - Volume: million gallons; surface area: acres  

v. Dimensions of the proposed dam or impounding structure: height; length

vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete):

D.2. Project Operations  

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both?  
   (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)  
If Yes:  

i. What is the purpose of the excavation or dredging?  

ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?  
   - Volume (specify tons or cubic yards):  
   - Over what duration of time:  

iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.

iv. Will there be onsite dewatering or processing of excavated materials?  
   If yes, describe.

v. What is the total area to be dredged or excavated? acres  

vi. What is the maximum area to be worked at any one time? acres  

vii. What would be the maximum depth of excavation or dredging? feet

viii. Will the excavation require blasting?  

ix. Summarize site reclamation goals and plan:

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?  
If Yes:  

i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description):
ii. Describe how the proposed action would affect that waterbody or wetland, e.g., excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments?
   If Yes, describe:
   ☐ Yes ☐ No

iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation?
   If Yes:
   • acres of aquatic vegetation proposed to be removed:
   • expected acreage of aquatic vegetation remaining after project completion:
   • purpose of proposed removal (e.g., beach clearing, invasive species control, boat access):
   • proposed method of plant removal:
   • if chemical/herbicide treatment will be used, specify product(s):

v. Describe any proposed reclamation/mitigation following disturbance:

vi. Will the proposed action use, or create a new demand for water?
   ☐ Yes ☐ No

   i. Total anticipated water usage/demand per day: unknown quantity permitted 2.54 mil. gallons/day

   ii. Will the proposed action obtain water from an existing public water supply?
      If Yes:
      • Name of district or service area: unknown - expected to include Village of Kiryas Joel municipal water supply
      • Does the existing public water supply have capacity to serve the proposal?
      • Is the project site in the existing district?
      • Is expansion of the district needed?
      • Do existing lines serve the project site?
      • Will line extension within an existing district be necessary to supply the project?
      ☐ Yes ☐ No

   iii. If new water supply district or service area is proposed to be formed to serve the project:
      • Applicant/sponsor for new district: unknown
      • Date application submitted or anticipated:
      • Proposed source(s) of supply for new district: Mountaintop Well Field - prospective NYS Catskill Aqueduct tap

   iv. Is a new water supply district or service area proposed to be formed to serve this project? If Yes:
      • Proposed sources of supply for new district: Orange County Sewer District No. 1

   v. If a public water supply will not be used, describe plans to provide water supply for the project:

   vi. If water supply will be from wells (public or private), maximum pumping capacity: 3,500 gallons/minute.

   d. Will the proposed action generate liquid wastes?
      ☐ Yes ☐ No

      i. Total anticipated liquid waste generation per day: 130,800 gallons/day

      ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each):

      iii. Will the proposed action use any existing public wastewater treatment facilities?
           ☐ Yes ☐ No

           i. Name of wastewater treatment plant to be used: Harriman Wastewater Treatment Plant; Kiryas Joel Sewage Treatment Plant
           • Name of district: Orange County Sewer District No. 1
           • Does the existing wastewater treatment plant have capacity to serve the project?
           • Is the project site in the existing district?
           • Is expansion of the district needed?
### Do existing sewer lines serve the project site?  
Yes ☐ No ☑

### Will line extension within an existing district be necessary to serve the project?  
Yes ☐ No ☑

If Yes:
- Describe extensions or capacity expansions proposed to serve this project:

Harriman Wastewater Treatment Plant proposes to increase its treatment capacity in the short-term at this time. Existing sewer lines serve the project area and the Orange County Department of Public Works confirms that capacity exists for new residential development on first come / first serve basis.

### Will a new wastewater (sewage) treatment district be formed to serve the project site?  
Yes ☐ No ☑

If Yes:
- Applicant/sponsor for new district:
- Date application submitted or anticipated:
- What is the receiving water for the wastewater discharge?

### If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):

### Describe any plans or designs to capture, recycle or reuse liquid waste:

### Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction?  
Yes ☐ No ☑

If Yes:
- How much impervious surface will the project create in relation to total size of project parcel?  
  - Square feet or acres (impervious surface)
  - Square feet or acres (parcel size)

### Describe types of new point sources:

### Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?

Although the proposed action will not create stormwater runoff itself, the acreage added to the new Town may result in new zoning and more intensive development similar to that currently allowed in the Village of Kiryas Joel, which may result in increased stormwater runoff.

- If to surface waters, identify receiving water bodies or wetlands:
  - unnamed tributary to the Ramapo River

### Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?  
Yes ☐ No ☑

### Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?  
Yes ☐ No ☑

If Yes, identify:
- Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
- Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)
- Stationary sources during operations (e.g., process emissions, large boilers, electric generation)

### Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit?  
Yes ☐ No ☑

If Yes:
- Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year)  
  - Yes ☐ No ☑

- In addition to emissions as calculated in the application, the project will generate:
  - _Tons/year (short tons) of Carbon Dioxide (CO₂)
  - _Tons/year (short tons) of Nitrous Oxide (N₂O)
  - _Tons/year (short tons) of Perfluorocarbons (PFCs)
  - _Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
  - _Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
  - _Tons/year (short tons) of Hazardous Air Pollutants (HAPs)
I. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? □ Yes □ No

If Yes:

i. Estimate methane generation in tons/year (metric): ______

ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): ____________________________________________

I. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? □ Yes □ No

If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? □ Yes □ No

If Yes:

i. When is the peak traffic expected (Check all that apply): □ Morning □ Evening □ Weekend □ Randomly between hours of ______ to ______

ii. For commercial activities only, projected number of semi-trailer truck trips/day: ______

iii. Parking spaces: Existing ______ Proposed ______ Net increase/decrease ______

iv. Does the proposed action include any shared use parking? □ Yes □ No

v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe:

vi. Are public/private transportation service(s) or facilities available within 1/2 mile of the proposed site? □ Yes □ No

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? □ Yes □ No

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? □ Yes □ No

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? □ Yes □ No

If Yes:

i. Estimate annual electricity demand during operation of the proposed action: ______

ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):

iii. Will the proposed action require a new, or an upgrade to, an existing substation? □ Yes □ No

I. Hours of operation. Answer all items which apply.

i. During Construction:
   • Monday - Friday: ______
   • Saturday: ______
   • Sunday: ______
   • Holidays: ______

ii. During Operations:
   • Monday - Friday: ______
   • Saturday: ______
   • Sunday: ______
   • Holidays: ______
m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?
   □ Yes □ No
   If yes:
   i. Provide details including sources, time of day and duration:

n. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen?
   □ Yes □ No
   Describe:

o. Will the proposed action have outdoor lighting?
   □ Yes □ No
   If yes:
   i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:

p. Does the proposed action have the potential to produce odors for more than one hour per day?
   □ Yes □ No
   If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:

q. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage?
   □ Yes □ No
   If Yes:
   i. Product(s) to be stored
   ii. Volume(s) per unit time (e.g., month, year)
   iii. Generally describe proposed storage facilities:

r. Will the proposed action (commercial, industrial, and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?
   □ Yes □ No
   If Yes:
   i. Describe proposed treatment(s):

s. Will the proposed action use Integrated Pest Management Practices?
   □ Yes □ No

t. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?
   □ Yes □ No
   If Yes:
   i. Describe any solid waste(s) to be generated during construction or operation of the facility:
      • Construction: ____________ tons per ____________ (unit of time)
      • Operation: ____________ tons per ____________ (unit of time)
   ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:
      • Construction:
      • Operation:

iii. Proposed disposal methods/facilities for solid waste generated on-site:
      • Construction:
      • Operation:
a. Does the proposed action include construction or modification of a solid waste management facility? [ ] Yes [ ] No
   If Yes:
   i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities):
   ii. Anticipated rate of disposal/processing:
      - Tons/month, if transfer or other non-combustion/thermal treatment, or
      - Tons/hour, if combustion or thermal treatment
   iii. If landfill, anticipated site life: __________ years

b. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? [ ] Yes [ ] No
   If Yes:
   i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility:
   ii. Generally describe processes or activities involving hazardous wastes or constituents:
   iii. Specify amount to be handled or generated __________ tons/month
   iv. Describe any proposals for on-site minimization, recycling, or reuse of hazardous constituents:
   v. Will any hazardous wastes be disposed of at an existing offsite hazardous waste facility? [ ] Yes [ ] No
      If Yes: provide name and location of facility:
      If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility:

E. Site and Setting of Proposed Action

E1. Land uses on and surrounding the project site

a. Existing land uses.
   i. Check all uses that occur on, adjoining and near the project site.
   [ ] Urban [ ] Industrial [ ] Commercial [ ] Residential (suburban) [ ] Rural (non-farm)
   [ ] Forest [ ] Agriculture [ ] Aquatic [ ] Other (specify): vacant
   ii. If mix of uses, generally describe:

Project site consists of 941.4 acres; affected land is primarily medium-density to low-density residential.

b. Land uses and covertypes on the project site.

c. Is the project site presently used by members of the community for public recreation?  
   ☐ Yes ☑ No  
   i. If Yes: explain: No recreational facilities are included in the new Town boundaries other than existing facilities within Kryss Joel.

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site?  
   ☑ Yes ☐ No  
   i. Identify Facilities: No such facilities will be impacted by boundary changes.

e. Does the project site contain an existing dam?  
   ☑ Yes ☐ No  
   i. Dimensions of the dam and impoundment: 
      • Dam height: ___________________________ feet 
      • Dam length: ___________________________ feet 
      • Surface area: ___________________________ acres 
      • Volume impounded: ___________________________ gallons OR acre-feet 
   ii. Dam's existing hazard classification:  
   iii. Provide date and summarize results of last inspection: 

f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility?  
   ☑ Yes ☐ No  
   i. Has the facility been formally closed?  
      ☑ Yes ☐ No  
      • If yes, cite sources/documentation: 
   ii. Describe the location of the project site relative to the boundaries of the solid waste management facility: 
   iii. Describe any development constraints due to the prior solid waste activities: 

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste?  
   ☑ Yes ☐ No  
   i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred: 

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site?  
   ☑ Yes ☐ No  
   i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: ☑ Yes — Spills Incidents database Provide DEC ID number(s): 1604033; 1604645; 1610245  
      ☑ Yes — Environmental Site Remediation database Provide DEC ID number(s):  
      ☐ Neither database  
   ii. If site has been subject of RCRA corrective activities, describe control measures: 
   iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database?  
      ☑ Yes ☐ No  
      If yes, provide DEC ID number(s): 
   iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):  
      All three Incidents are now closed
v. Is the project site subject to an institutional control limiting property uses?  
☐ Yes ☐ No

- If Yes, DEC site ID number: ____________________________
- Describe the type of institutional control (e.g., deed restriction or easement): __________________________________________
- Describe any use limitations: ____________________________
- Describe any engineering controls: _______________________
- Will the project affect the institutional or engineering controls in place?  
  ☐ Yes ☐ No
  Explain: __________________________________________

E.2. Natural Resources On or Near Project Site

a. What is the average depth to bedrock on the project site?  
2.4 feet

b. Are there bedrock outcroppings on the project site?  
☐ Yes ☐ No
If Yes, what proportion of the site is comprised of bedrock outcroppings?  
approximately 1 %

c. Predominant soil type(s) present on project site:  
- Martindale-Erie: 90 %
- Arcot-Swartwood Hollis: 10 %

- What is the average depth to the water table on the project site? Average: ____________________________ feet

d. Drainage status of project site soils:  
- Well Drained: 5 % of site
- Moderately Well Drained: 95 % of site
- Poorly Drained: 0 % of site

e. Approximate proportion of proposed action site with slopes:  
- 0-10%: 80 % of site
- 10-15%: 18 % of site
- 15% or greater: 2 % of site

f. Are there any unique geologic features on the project site?  
☐ Yes ☐ No
If Yes, describe: ____________________________

h. Surface water features.
  i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)?  
  ☐ Yes ☐ No
  ii. Do any wetlands or other waterbodies adjoin the project site?  
  ☐ Yes ☐ No
If Yes to either i or ii, continue. If No, skip to E.2.i.

  i. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency?  
  ☐ Yes ☐ No

  iv. For each identified regulated wetland and waterbody on the project site, provide the following information:
  - Streams:  
    - Name: 960-08
    - Classification: C
  - Lakes or Ponds:  
    - Name: Classification
  - Wetlands:  
    - Name: Federal Waters, NYS Wetland
    - Wetland No. (if regulated by DEC) MO-11
    - Approximate Size: 67.8 acres

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?  
☐ Yes ☐ No
If Yes, name of impaired water body/bodies and basis for listing as impaired: ____________________________

i. Is the project site in a designated Floodway?  
☐ Yes ☐ No

j. Is the project site in the 100 year Floodplain?  
☐ Yes ☐ No

k. Is the project site in the 500 year Floodplain?  
☐ Yes ☐ No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?  
☐ Yes ☐ No
If Yes:
  i. Name of aquifer: Sole Source Aquifer: Ramapo SSA
m. Identify the predominant wildlife species that occupy or use the project site:
   - n/a
   - n/a
   - n/a

n. Does the project site contain a designated significant natural community? [Yes No]
   If Yes:
   i. Describe the habitat/community (composition, function, and basis for designation):

Pine-Oak Heath Rocky Summit

   ii. Source(s) of description or evaluation:

   iii. Extent of community/habitat:
   - Currently: 5.0 acres
   - Following completion of project as proposed: acres
   - Gain or loss (indicate + or -): acres

o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species? [Yes No]

Details of such species and habitat will need to be addressed should subsequent zoning amendments and/or site development arise with establishment of a new Town.

p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? [Yes No]

q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? [Yes  No]
   If yes, give a brief description of how the proposed action may affect that use:

E.3. Designated Public Resources On or Near Project Site

a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? [Yes  No]

   If Yes, provide county plus district name/number: Orange County Agricultural District No. 1

b. Are agricultural lands consisting of highly productive soils present? [Yes  No]
   i. If Yes: acreage(s) on project site?
   ii. Source(s) of soil rating(s): USDA Prime soils and Statewide Important Soils; source, Orange County Soil and Water Conservation District.

c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? [Yes  No]

   If Yes:
   i. Nature of the natural landmark: Biological Community
      Geological Feature
   ii. Provide brief description of landmark, including values behind designation and approximate size/extent:

   d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? [Yes  No]

   If Yes:
   i. CEA name:
   ii. Basis for designation:
   iii. Designating agency and date:
c. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places?  □ Yes □ No

If Yes:
   i. Nature of historic/archaeological resource:  □ Archaeological Site  □ Historic Building or District
   ii. Name: __________________________
   iii. Brief description of attributes on which listing is based:

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?  □ Yes □ No

g. Have additional archaeological or historic site(s) or resources been identified on the project site?  □ Yes □ No

If Yes:
   i. Describe possible resource(s):
   ii. Basis for identification:

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?  □ Yes □ No

If Yes:
   i. Identify resource:
   ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): __________________________
   iii. Distance between project and resource: see above miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666?  □ Yes □ No

If Yes:
   i. Identify the name of the river and its designation:
   ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?  □ Yes □ No

F. Additional Information
Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification
I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name: Legislature, County of Orange  Date: June 23, 2017  Title: Commissioner of Planning for County Legislature
**Full Environmental Assessment Form**

**Part 2 - Identification of Potential Project Impacts**

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:
- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action.”
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

### Impact on Land

Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1, D.1)

*If “Yes”, answer questions a – j. If “No”, move on to Section 2.*

<table>
<thead>
<tr>
<th>Question(s)</th>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may involve construction on land where depth to water table is less than 3 feet.</td>
<td>E2d</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>b. The proposed action may involve construction on slopes of 15% or greater.</td>
<td>E2f</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.</td>
<td>E2a</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.</td>
<td>D2a</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>e. The proposed action may involve construction that continues for more than one year or in multiple phases.</td>
<td>D1e</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).</td>
<td>D2a, D2q</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>g. The proposed action is, or may be, located within a Coastal Erosion hazard area.</td>
<td>B1i</td>
<td>□</td>
<td>□</td>
</tr>
<tr>
<td>h. Other impacts:</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
2. Impact on Geological Features

The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)

If "Yes", answer questions a - c. If "No", move on to Section 3.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Identify the specific land form(s) attached:</td>
<td>B2g</td>
<td>□</td>
</tr>
<tr>
<td>b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:</td>
<td>E3e</td>
<td>□</td>
</tr>
<tr>
<td>c. Other impacts:</td>
<td></td>
<td>□</td>
</tr>
</tbody>
</table>

3. Impacts on Surface Water

The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)

If "Yes", answer questions a - l. If "No", move on to Section 4.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may create a new water body.</td>
<td>D2b, D1h</td>
<td>□</td>
</tr>
<tr>
<td>b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.</td>
<td>D2b</td>
<td>□</td>
</tr>
<tr>
<td>c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.</td>
<td>D2a</td>
<td>□</td>
</tr>
<tr>
<td>d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.</td>
<td>E2h</td>
<td>□</td>
</tr>
<tr>
<td>e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.</td>
<td>D2a, D2h</td>
<td>□</td>
</tr>
<tr>
<td>f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.</td>
<td>D2c</td>
<td>□</td>
</tr>
<tr>
<td>g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).</td>
<td>D2d</td>
<td>□</td>
</tr>
<tr>
<td>h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.</td>
<td>D2e</td>
<td>□</td>
</tr>
<tr>
<td>i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.</td>
<td>E2h</td>
<td>□</td>
</tr>
<tr>
<td>j. The proposed action may involve the application of pesticides or herbicides in or around any water body.</td>
<td>D2g, E2h</td>
<td>□</td>
</tr>
<tr>
<td>k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.</td>
<td>D1a, D2d</td>
<td>□</td>
</tr>
</tbody>
</table>
### 4. Impact on Groundwater

The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquifer. (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.r)

If "Yes", answer questions a - h. If "No", move on to Section 5.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.</td>
<td>D2c</td>
<td>☐</td>
</tr>
<tr>
<td>b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source: see attached explanation, including for 4a &amp; b</td>
<td>D2c</td>
<td>☐</td>
</tr>
<tr>
<td>c. The proposed action may allow or result in residential uses in areas without water and sewer services.</td>
<td>D1e, D2c</td>
<td>☑</td>
</tr>
<tr>
<td>d. The proposed action may include or require wastewater discharged to groundwater.</td>
<td>D2d, E2i</td>
<td>☑</td>
</tr>
<tr>
<td>e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.</td>
<td>D2e, E1f, E1g, E1h</td>
<td>☑</td>
</tr>
<tr>
<td>f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.</td>
<td>D2p, E2i</td>
<td>☑</td>
</tr>
<tr>
<td>g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.</td>
<td>E2h, D2q, E2i, D2c</td>
<td>☑</td>
</tr>
<tr>
<td>h. Other impacts: Extension of water services may result in impacts to groundwater supply in areas of well fields, particularly the Town of Cornwall</td>
<td>☐</td>
<td>☑</td>
</tr>
</tbody>
</table>

### 5. Impact on Flooding

The proposed action may result in development on lands subject to flooding. (See Part 1. E.2)

If "Yes", answer questions a - g. If "No", move on to Section 6.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may result in development in a designated floodway.</td>
<td>E2i</td>
<td>☐</td>
</tr>
<tr>
<td>b. The proposed action may result in development within a 100 year floodplain.</td>
<td>E2j</td>
<td>☐</td>
</tr>
<tr>
<td>c. The proposed action may result in development within a 500 year floodplain.</td>
<td>E2k</td>
<td>☐</td>
</tr>
<tr>
<td>d. The proposed action may result in, or require, modification of existing drainage patterns.</td>
<td>D2b, D2c</td>
<td>☐</td>
</tr>
<tr>
<td>e. The proposed action may change flood water flows that contribute to flooding.</td>
<td>D2b, E2i, E2i, E2k</td>
<td>☐</td>
</tr>
<tr>
<td>f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?</td>
<td>E1e</td>
<td>☐</td>
</tr>
</tbody>
</table>
g. Other impacts: .................................................................

6. Impacts on Air
The proposed action may include a state regulated air emission source.
(See Part 1, D.2.f., D.2.h, D.2.g)

<table>
<thead>
<tr>
<th>Question(s)</th>
<th>Relevant Part I Question(s)</th>
<th>Yes or Moderate to Large Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels:</td>
<td>D2g, D2h</td>
<td>□</td>
</tr>
<tr>
<td>i. More than 1000 tons/year of carbon dioxide (CO₂)</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>ii. More than 3.5 tons/year of nitrous oxide (N₂O)</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>iv. More than .045 tons/year of sulfur hexafluoride (SF₆)</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>v. More than 1000 tons/year of carbon dioxide equivalent of hydrochlorofluorocarbons (HFCs) emissions</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>vi. 43 tons/year or more of methane</td>
<td>D2h</td>
<td>□</td>
</tr>
<tr>
<td>b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU’s per hour.</td>
<td>D2f, D2g</td>
<td>□</td>
</tr>
<tr>
<td>d. The proposed action may reach 50% of any of the thresholds in “a” through “o”, above.</td>
<td>D2g</td>
<td>□</td>
</tr>
<tr>
<td>e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.</td>
<td>D2s</td>
<td>□</td>
</tr>
<tr>
<td>f. Other impacts: ___________________________________________________________</td>
<td>□</td>
<td>□</td>
</tr>
</tbody>
</table>

7. Impact on Plants and Animals
The proposed action may result in a loss of flora or fauna. (See Part 1, E.2.m.-q.)

<table>
<thead>
<tr>
<th>Question(s)</th>
<th>Relevant Part I Question(s)</th>
<th>Yes or Moderate to Large Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may cause a reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.</td>
<td>E2o</td>
<td>□</td>
</tr>
<tr>

<tr>
<td>j. Other impacts:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

8. Impact on Agricultural Resources
The proposed action may impact agricultural resources. (See Part 1. E.3.a. and b.)

If "Yes", answer questions a - h. If "No", move on to Section 9.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.</td>
<td>E2c, E3b</td>
<td>□</td>
</tr>
<tr>
<td>b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).</td>
<td>E1a, E1b</td>
<td>□</td>
</tr>
<tr>
<td>c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land.</td>
<td>E3b</td>
<td>□</td>
</tr>
<tr>
<td>d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District.</td>
<td>E1b, E3a</td>
<td>□</td>
</tr>
<tr>
<td>e. The proposed action may disrupt or prevent installation of an agricultural land management system.</td>
<td>E1a, E1b</td>
<td>□</td>
</tr>
<tr>
<td>f. The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland.</td>
<td>C2c, C3, D2c, D2d</td>
<td>□</td>
</tr>
<tr>
<td>g. The proposed project is not consistent with the adopted municipal Farmland Protection Plan.</td>
<td>C2c</td>
<td>□</td>

### 15. Impact on Noise, Odor, and Light

The proposed action may result in an increase in noise, odors, or outdoor lighting.

<table>
<thead>
<tr>
<th>Relevant Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action may produce sound above noise levels established by local regulation.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. The proposed action may result in routine odors for more than one hour per day.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If "Yes", answer questions a - f. If "No", go to Section 16.
d. The proposed action may result in light shining onto adjoining properties. | D2c | ☐ | ☐

c. The proposed action may result in lighting creating sky-glow brighter than existing area conditions. | D2e, E1a | ☐ | ☐

f. Other impacts: __________________________ | ☐ | ☐

### 16. Impact on Human Health

The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part I.D.2.q., E.1. d, f, g, and h.)

If "Yes", answer questions a - m. If "No", go to Section 17.

<table>
<thead>
<tr>
<th>Relevan t Part I Question(s)</th>
<th>No, or small impact may occur</th>
<th>Moderate to large impact may occur</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.</td>
<td>E1d</td>
<td>☐</td>
</tr>
<tr>
<td>b. The site of the proposed action is currently undergoing remediation.</td>
<td>E1g, E1h</td>
<td>☐</td>
</tr>
<tr>
<td>c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.</td>
<td>E1g, E1h</td>
<td>☐</td>
</tr>
<tr>
<td>d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).</td>
<td>E1g, E1h</td>
<td>☐</td>
</tr>
<tr>
<td>e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.</td>
<td>E1g, E1h</td>
<td>☐</td>
</tr>
<tr>
<td>f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.</td>
<td>D2t</td>
<td>☐</td>
</tr>
<tr>
<td>g. The proposed action involves construction or modification of a solid waste management facility.</td>
<td>D2g, E1f</td>
<td>☐</td>
</tr>
<tr>
<td>h. The proposed action may result in the unearthing of solid or hazardous waste.</td>
<td>D2g, E1f</td>
<td>☐</td>
</tr>
<tr>
<td>i. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.</td>
<td>D2r, D2s</td>
<td>☐</td>

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:
To complete this section:
- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact.
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions

SQOR Status: ☐ Type 1 ☑ Unlisted

Identify portions of EAF completed for this Project: ☑ Part 1 ☑ Part 2 ☑ Part 3
Upon review of the information recorded on this EAF, as noted, plus this additional support information and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the County of Orange as lead agency that:

☑ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☑ B. Although this project could have a significant adverse impact on the environment, the impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

1. Action by the County is strictly limited to the granting of the petition for incorporation of a new Town and to provide for the submission of the petition to the electors of the Town of Monroe; as such, potential impacts identified in FEAF Part 2 must be addressed as note in 2 below and.
2. SEQR documentation for the subject Action can not be relied upon for subsequent adoptions of comprehensive plan and zoning amendments or related extensions or expansions of water, sewer or other services, or for specific land development that proposed new Town be approved.

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.6).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Name of Action: Creation of the Town of Palm Tree

Name of Lead Agency: County of Orange

Name of Responsible Officer in Lead Agency: L. Stephen Bresle

Title of Responsible Officer: Chairman of the Legislature

Signature of Responsible Officer in Lead Agency: [Signature]

Date: [Date]

Signature of Preparer (if different from Responsible Officer): [Signature]

Date: [Date]

For Further Information:

Contact Person: Jean M. Rappap, Clerk of the Legislature

Address: Orange County Legislature, 15 Matthews Street, Goshen, NY 10924

Telephone Number: 845 291-4800

E-mail: legislature@orangecountygov.com

For Type 1 Actions and Conditioned Negative Declarations, a copy of this Notice is sent to:

Chief Executive Officer of the political subdivision in which the action will be principally located (e.g., Town / City / Village of)

Other involved agencies (if any)

Applicant (if any)
